interact™ solution

the solution
for intuitive business

Interact Solution is a cohesive application that provides interactive video streams while recording and allowing users to embed notes directly into the video. It enhances numerous corporate initiatives within sales, marketing, and product enterprises; staff development and training; mentor, entrepreneur, and apprentice programs; and quality and compliance uniformity. **Interact** incorporates video recordings, annotates, collaborations, and live communications between multiple locations and in-field efforts. Through **interacts'** secure Web Portal content access and electronic dissemination to individuals or groups is efficient and quick.
